Charlestown Marriages 1843-1849

Almost nine hundred marriages were recorded in Charlestown in the period from 1843 through 1849. These marriage records are found in Charlestown Archives volumes 8 and 9, with a single 1840 marriage entered in Volume 10 in 1862. Seventy-six other marriages for 1843 through 1848 are found in Volume 2 - Part II. As with earlier records, the marriages were for the most part entered in groups as returned by ministers and justices of the peace.

On the printed forms supplied for the recording of marriages are the following headings:

No./When Registered./Name and Surname of Groom and Bride./Condition./Age of Each./ Occupation./Date of Marriage./Name, Residence and Official Station of Person by whom Married./Place of Birth./Place of Residence at time of Marriage./Name and Surname of Parents./Residence of Fathers./Informant.

In 1848 a new, blue form was introduced which no longer had columns for Place of Birth and Residence of Fathers.

A third form is found at the beginning of Volume 9. The following printed columns appear:

Date of Marriage./Names and Surnames of Groom and Bride./Residence of Each at the Time of Marriage./Age of Each./Occupation of Groom./ Place of Birth of Each./ Names of Parents./ What Marriage--Whether First, Second, Third, &c./Name and Official Station of the Person By Whom Married./Date of Record.

For simplicity and continuity, the information for all the entries in this book has been presented in the following order:

Name of groom, residence, condition (sing., bachelor, wid.), age (in years), occupation, birthplace, names of parents, residence of father, name of bride, residence, condition (sing., maiden, wid.), age, birthplace, names of parents, residence of father, date of marriage, officiant at marriage and his residence and station.

The informant is the same as the officiant unless noted otherwise. The date of registration of the marriages is shown below the page heading or at other places when it changes; isolated registrations are included as part of an entry. Any column that is blank in an entry is not so noted in this book; however, certain instances of "not returned" are noted when needed for clarity. Additional information entered from the State copies of marriages has been designated Mass VRs (see page x).

For several records, the station of the officiant (minister, justice of the peace, and so forth) was not entered. The maiden names of brides who were marrying for a second or third time cannot be determined in some cases, for the surname of the parents was not always noted. The residences of the groom's and bride's fathers were rarely shown, if at all.

On pages 1 through 6 of Volume 8, Town Clerk David Dodge only indicated the year of a marriage if it was different from the previous entry. Later, someone wrote in the year for all entries.

Typed copies of pre-1849 marriages recorded in Volume 9 are pasted into the front of Volume 8, and 1849 marriages recorded in Volume 8 are pasted into the front of Volume 9. These copies were probably made when the WPA created typed volumes of the Charlestown Vital Records in the 1930s (see Volume I, page x).

The correction of the marriage entry for Mathias Meinner and Helen Maria Shedd on page 37 of Volume 8 may suggest some ministers did not correctly enter the date of marriage but rather the date they reported the marriage (see pages 780 and 782).

Subsequent to the publication of *The Vital Records of Charlestown* Volume I, 123 original certificates of "a purpose of marriage" for 1840-1868 were discovered in the "Henry Herbert Edes Collection" at the Society (SG/EDE/6/1, given by The Massachusetts Historical Society 14 March 1939). The marriage intentions in this collection prepared in Charlestown for 1840-1849 were compared with those published in Volume I and the only significant differences found were the following:

Mr. Samuel P. Cutter & Miss Elizabeth Fruin, both
 of Charlestown, entered Nov. 23, 1845 [1:701].
David West Herrick and Sarah Ann Harden, both of
 Boston, entered Dec. 2, 1848 [1:734].

See also the footnote on page 235, with different information taken from the original intention recorded in Boston and found in the Edes Collection.

Charlestown Marriages - Volume 10

Saml. J. Needham of Boston & Mary Danton of [Boston crossed off in red ink], m. in Charlestown, Oct. 23, 1840 by Rev. Jonas W. Holman of Charlestown. Recorded Nov. 4 [altered from 2], 1862. [Marginal note added later: Dup of Vol 4 Page 234.]

Charlestown Deaths 1843-1849

For the period 1843 through 1849, 2054 deaths were recorded in Charlestown. They are found in Charlestown Archives volumes 11 and 12. Two later recordings were made in Volume 12 in 1857, when the remains of two children who died in Havana, Cuba, were evidently brought for burial, as Charlestown was their parents' residence at that time. Sixty-nine deaths occurring in 1843, 1844, and 1846 were recorded in town Volume 2 - Part II.

The first state-supplied printed forms for recording deaths show the following headings:

No./When Registered./Name and Surname./Sex and Condition./AGE. Yrs. Mos. Dys./ Occupation./Date of Death./ Place of Interment./ Disease or Cause of Death./Place of Birth./ Name and Surname of Parents. If a married Female, the name of Husband./Informant.

A form dated 1846 but not used until 1848 lacked columns for Place of Interment and Informant.

In 1849 a third form was used which not only restored the columns for Place of Interment and Informant but for the first time had a column for Place of Death.

The order of information used for this book is as follows:

name, sex, marital status (sing., mar., wid.), age (y-m-d), occupation, date of death, place of burial (bur.-name of cemetery in Charlestown, unless noted otherwise), cause of death, birthplace, names of parents and/or husband.

According to Massachusetts law, deaths were to be reported by the undertakers. Their returns are found in groups and are so marked with their name and date of registration into the town records. Some reports of deaths were submitted by the keeper of the Almshouse and are so designated. Any information not filled in for any entry is not so noted in this book, but certain instances of "Not returned" have been used when needed for clarity. Information supplied from the State copies of deaths for illegible Charlestown records is designated Mass VRs (see page x).

In many cases it is not clear if the name in the column for Name of Parents or Husband is that of a woman's father or husband. Sometimes her marital status was not shown and in some cases she could have married a man whose surname was the same as her maiden name. When the record is not clear, question marks have been added to the editorial additions [father] and [husband] thus: [father?], [husband?].

Another problem may be the dates of death shown in the town records. Many have been altered to earlier days. For example, see the entries for Sarah Edes, page 840, Catharine Whipple, page 860, and Josiah Barker, page 886. These changes suggest the dates submitted by the undertakers may have been those of burial rather than death.

Beginning in June 1848, a separate ledger volume was kept in which were recorded daily burials in the City of Charlestown, regardless of where the person died. This volume is for the period 1848 to 1859 and a second volume covers to 1873. A comparison was made between this volume and the 1848 and 1849 deaths in volumes 11 and 12 and any differences noted with the designation BR1, for Burial Record Volume 1. The headings in this volume, which is labeled Record of Deaths and Burials, In the City of Charlestown, Commencing with the year 1848, are the following:

No./When Interred./Names of Persons Interred./[Age:] Year. Month./To What Family Belonging./Disease, or Cause of Death./Undertakers./Where Interred.

Charlestown Burials

A city-wide record of burials was kept in Charlestown from June 12, 1848 until it ceased to exist as a separate city in 1873. Unlike the city's records of deaths which were entered in groups as returned by undertakers, the burial records were kept chronologically by date of interment. There are two volumes of Charlestown burials, the first ending November 22, 1859.

Normally, cemetery records are considered private records, but since the City of Charlestown also kept a register of burials as a civil record, the information is included here. Many of the burials in Charlestown were for persons who lived elsewhere, but since some of these people may have had ties to Charlestown, all names in the register have been included. Possibly some Boston residents were interred in Charlestown because of the limited burial space in their home city.

For each person buried in Charlestown was entered his or her name, date of death, date of burial, age, name of family (usually father of a child) or town (residence), cause of death, name of undertaker, and place of interment. In a few cases the entries were annotated later to indicate removal of remains to another cemetery.

Because this record includes both the dates of death and burial, it has been possible to compare it with the regular record of deaths for Charlestown, from which it can be concluded many undertakers' returns of "deaths" showed the date of burial for the date of death (see page 802).
